

ORDERED TO GO ON

Board of Public Works Must
Pave Plainfield Avenue.

DIRECTED BY THE COUNCIL

Plans Adopted to Meet the \$225,000
of Water Bonds Which Fall Due
Oct. 1.—Mr. Kenyon Remains.

The council, after passing resolutions instructing the board of public works to delay all contracts to be performed on the five-year plan until the bonds are sold, last night instructed the board to proceed at once with plainfield avenue, one of the streets to be improved on the five-year plan. No action rescinding the former resolution has been taken.

A communication from the Macabees asked that Fulton street park be given them for the purpose of holding a band tournament, to be given immediately after the parade. During the debate which followed a half dozen places were mentioned as substitutes for Fulton street park, but the prayer of the petitioners was granted.

Mayor Stuart called attention to the fact that the council had been invited to attend the parade, and on motion of Alderman Gilling the council will meet at 2 o'clock and proceed to Lincoln Park.

Residents and property owners on Prescott street asked for a low light at the Prescott street crossing. Referred to the committee on lighting.

Mr. Beak of East Fulton street asked for damages to the amount of \$600 for a bill made in front of his property at the corner of East Fulton and Fuller streets. Referred to the city attorney to report as to the city's liability.

Residents of the sixth ward made a protest against a sewer drain constructed by quarrymen in the river. Referred to the aldermen of the ward.

Many draymen asked to be allowed to stand on East Bridge street and on Erie and Huron streets. Referred to the aldermen of the ward.

Will Meet to Confer.

The charity organization asked that the mayor, the committee on poor and the poor relief committee with the executive board of the society at an early date. Mayor Stuart named Wednesday evening as the date at which the meeting will be held.

T. D. Gilbert, president of the Charity society, asked that the ordinance against begging be enforced. Referred to the board of police and fire commissioners.

Residents of North Prospect street asked that the street be placed in passable condition by the street commissioner. Referred to the aldermen of the ward.

The committee on ways and means recommended that \$10,000 be transferred from the general fund to the water works fund.

The committee on ways and means reported having hired Frank H. Ellis as city hall stenographer, he being the lowest bidder for such work.

Will Meet the Bonds.

The committee on ways and means reported in regard to the refunding of the \$225,000 of water bonds. The report says: "Not finding a satisfactory offer for the sale of the water bonds to pay these maturing October 1 next in time to take care of said bonds with certainty and to save the city from defaulting on the payment of said bonds when due, we have made an arrangement with the National City bank of this city to provide for the payment of said bonds when due and to pay the same, the city to pay said bonds and to be endorsed thereon semi-annually at the same rate that they now bear for such term as they may be held, with the privilege of paying the principal of said bonds at any time and to carry out the same, we beg leave to submit an appropriation resolution." This was adopted and a resolution was adopted authorizing the bank to carry out its part of the program.

The committee submitted a proposition from a broker to negotiate the \$225,000 of bonds in England at par and accrued interest at 4 1/2 per cent, the broker to have \$2,500 as his commission. The proposition was tabled.

The committee on streets recommended that Mosher & Hughes be paid an amount on their street sign contract.

The committee on light recommended that two low lamps be placed, one at the corner of West Bridge street and Chatham street, the other at the corner of East street and Fifth avenue. Adopted.

Mayor Stuart moved and President Saunders held the chair for the balance of the evening.

The following rolls were ratified and confirmed: Sewer in Scribner street, Thompson court improvement, sewer in North Division street, and Frank street improvement.

Mr. Kenyon Remains.

The matter of discharging Mr. Kenyon from the parties was brought up and a long discussion ensued. The resolution calling for Mr. Kenyon's dismissal was lost.

Alderman Mahoney moved that the board of public works proceed at once with the improvement of Plainfield avenue. A motion to table was lost and

the resolution was carried by a vote of 12 to 8. Alderman Shaw and Stinson refusing to vote.

Alderman Mills moved that the board of public works report why it had not proceeded with the abutments to the wealthy avenue bridge.

The

"WHITE CITY FLYER"
to the
World's Fair

Is a popular train for the reason that it leaves at a convenient hour (7:25) in the morning and arrives at Midway Plaisance at noon—right at the fair entrance. This gives one the full afternoon at the fair, which is as much as most people can stand the first day. No time lost by this arrangement. Make the trip in the forenoon, only four and one-half hours, and see the fair in the afternoon. Extra provision will be made to accommodate the large number that will go on the 12th to attend the "Michigan Day" celebration. Try the "Flyer" and see what an economizer of time it is and how enjoyable the trip is on a fast train. Round trip rate on the 12th will be \$5.40, good ten days, via the "West Michigan."

AS ONLY A BABY CAN.

Consoles One for All Sorrow-Save Those
It Brings—The Attention of
Mothers Awakened to the
Need of Better Diet.

A baby is a despot in long clothes. The mother's tenderness and her marvelous intuition for doing the right thing accomplishes much, but it often happens, with all her solicitude, that ignorance of infant needs endangers baby's health and life.

"In looking over my case of summer diarrhoea for the past few years," says

LITTLE CASSANDRA.

Dr. Holt physician to the New York infant asylum, "I find that in over 400 cases the most common existing cause was improper feeding."

Because it is the most nourishing, most palatable, most digestible, purest of foods, physicians and experienced nurses recommend and use lactated food.

Lactated food has saved thousands of infants from cholera infantum and fatal diarrhoea. It more closely resembles mother's milk than any other food known. Its basis is sugar of milk, which is the basis of mother's milk. With it is combined the nutritive parts of wheat, barley, and oats in such proportions as best meet the requirements of the growing child.

"Our little Cassandra," writes Mrs. T. W. Wallace of Oberlin, O., "has been using lactated food, and has never seen a sick day."

Babies live on lactated food!

Every Michigan man, woman and child who can possibly get there is expected to appear on the World's Fair grounds some day during next week; more particularly on Wednesday or Thursday, or more properly speaking on Wednesday and Thursday.

Those who think they know something about such things, say that next week will be a kind of a parting look at the big show by Michigan folks.

That is to say, Michigan people will enjoy the Fair grounds when lots of other Michigan people are there.

The advance inquiries of the railroad agents indicate a great delegation from all Michigan, but particularly from the Western part of the State, and as economy is the order.

And the necessity of the day, the West Michigan "Flyer" comes into the foreground.

It saves a day by permitting breakfast at home (many take the lunch for that day with them) and eat it just before reaching the fair.

Arriving at the Midway entrance, where the "Flyer" makes a special stop, at 12 noon.

All the afternoon and evening is more than most can stand, and therefore an extra day is had by taking the "White City Flyer," which leaves Grand Rapids via C. & W. M.

At 7:25 a. m. Other good trains on same line leave at 1:25 p. m. and 11:30 p. m.
